LIQUIDATED ACCORDING TO THE RULEBOOK

Time after time we see the tragic consequences of the indiscriminate killings in the Occupied Territories, with machine guns, flechette shells and helicopter missiles. The policy of liquidations and "targeted prevention" and the unchecked killings, have caused the death of hundreds of innocent Palestinians, including women and children. This past Thursday, the policy of man hunting led to the murder of two Israeli security guards, in the same way that dozens of Palestinians have been killed.

We wish to express our sorrow over the death of the dozens of Palestinians and Israelis who have been "liquidated".

Yesh Gvul reiterates that murder without trial, including the various types of "liquidation", is a war crime. If the law and justice agencies in Israel don't wake up and investigate and prosecute the liquidation actions, the planners and perpetrators of this murderous policy in the government, the army and the State Prosecutor's Office, are liable to find themselves on trial at international criminal courts.

This policy of liquidation must stop! The Occupation must be ended!

More than 1000 soldiers have declared that they refuse to take part in actions of occupation and oppression. We stand by their side. (...) We will demonstrate...against the continuation of the Occupation, in favour of peace between us and our Palestinian neighbours and to bring our support for the jailed refuseniks. Join us in our support for these brave people - Noam Bahat; Jonathan Ben-Artzi; Hillel Goral; Yoni Yehezkel; Pvt. (res.) Gil Lederman; Haggai Matar; Adam Maor; Rabia Jihad Sa'ad; Shimri Tzameret; Matan Kaminer; Sgt. (res.) Eyal Raz; Lt. (res.)
